

# LINKnet's

## Mentoring and Training Service

---

This service offers limitless opportunity to those who need one to one support to find a job, get a place at College/University or for personal development. Our experienced and qualified mentors will support you to achieve your desired goal. We invite all minority ethnic people who require support to take advantage of this free but valuable service. The project is funded by the Scottish Government's Promoting Equality and Cohesion Fund, Adult Learning and Empowering Communities fund and The City of Edinburgh Council's European Social fund.

# Mentors

We accept all those who would like to be mentors as long as they can spare 2 to 3 hours per week, voluntarily helping a minority ethnic person to develop.

# Mentees

Those who belong to any minority ethnic group can benefit from this service as long as they are over 18 years of age.

## Ian (a mentor)

*"Pau has done extremely well with the help of the mentoring sessions and LINKnet's English classes. He met all his outcomes, i.e., applications to University, personal statements, interviews skills and all communications skills. He applied for Postgraduate course in four universities and all four gave him an unconditional offer to study with them.*

*At present he has accepted the Edinburgh University offer for his Postgraduate course*

*Jan 2016*

## David (a mentee)

*"I want to express my appreciation and delight to all the members of staff of LINKnet Mentoring for the good work that you are doing. My experience has been amazing. The welcome on my first visit was very warm and the staffs were very friendly and professional.*

*The services are crucial in assisting the ethnic minorities in improving their employability skills and getting over the barriers that foreigners have in obtaining jobs*

*More importantly through the help of the mentoring and the opportunity to volunteer at LINKnet, I got my first professional job after many years of doing menial jobs. LINKnet assisted me to overcome the barriers which had consistently prevented me from being successful in several of the past interviews.*

*Please keep the flag flying."*

*David 2016*
